INTERNATIONAL WORKSHOP ON “MONETARY THEORY AND POLICY”

Organized by
URUPPIKA – IIMK Centre for Excellence in Macroeconomics, Banking & Finance

The workshop will introduce you to the fundamentals of monetary theory and policy. The first half of the workshop will delve into the basic question of why money influences output and employment. We will also discuss certain shortcomings of New Keynesian and New Classical theories when it comes to explaining the non-neutrality of money. The second half of the workshop will discuss how monetary policy is formulated in central banks and the mechanisms by which central bank decisions permeate through the economy.

THURSDAY 11 APRIL 2024
