THE IIM KOZHIKODE ADVANTAGE

From the Director's Desk...

IIM Kozhikode programmes designed by world-class faculty with their cutting-edge thought and industry-leading insights empower participants to manage and lead complex business challenges with confidence and informed decision-making ability. Our growing global footprints acknowledged and accredited by leading institutions of the world are a testimony to growth we have achieved in our 25-year journey of academic excellence.

At this juncture, it is also pertinent to share that both future and past are integral to the path taken by an institution on this journey of excellence. Having a wide, far-seeing vision is not an indulgence but an activity that is necessary to give meaning to our present, to give this Institution a sense of purpose, direction and imagination. That is why we have chosen to think in terms of what IIM Kozhikode will be able to contribute to India and the world some three decades from now with 'Vision 2047: Globalizing Indian Thought.' The sheer scale, scope and potential impact that India will have on 21st century business makes us believe that this is a legitimate aspiration.

For candidates, Crafting a great product is just the first half of the story of running a successful business. Generating revenue is dependent upon making the potential customers aware of the product, its advantages and the reasons why it is better than its competitors. The second half of your business story hence requires communication of this information effectively to the masses and the responsibility of writing this story rests on the shoulders of the Marketing & Sales teams. Thus, it is evident that the success of a product and an organization relies heavily on the robustness and seamless collaboration between its Marketing & Sales functions. The MSM programme has thus been designed keeping the above objectives in mind.

Wishing you all the very best!
