# An Institution of Excellence for Business Leaders

Started in 1997 with its Post Graduate Programme (PGP), the Indian Institute of Management Kozhikode (IIMK) is on a high growth trajectory today, offering a wide range of academic programmes in the field of management education. These include the Fellow Programme in Management, Executive PG Programmes, Management Development Programmes and Faculty Development Programs. IIMK set up a Satellite campus at Info park, Kochi, in 2013 dedicated to Executive Education. IIMK has also the unique distinction of launching a PhD (Practice Track) programme for working professionals besides bringing in new dynamic programmes such as the one-year Post Graduate programme in Business Leadership (2019) MBA in Finance and MBA in Liberal Studies & Management (2020). The institute is also home to IIMK LIVE a first-of-its-kind start-up incubation programme and the Indian Business Museum.

IIMK is ranked 3rd as per NIRF India Rankings 2024: Management. The Indian Institute of Management Kozhikode (IIMK) has continued its upward trajectory in global rankings, securing a career-best #141 position in the QS World University Rankings by Subject 2025 for 'Business & Management Studies' Category. This marks a notable improvement from last year's 151-200 range and a significant leap from its initial ranking in the 401-500 range in 2021. IIM Kozhikode is also globally accredited by EQUIS (EFMD) and AMBA (UK) and is on the verge of a triple-accreditation crown. IIM Kozhikode also made its debut in the prestigious Financial Times Rankings in 2023 and was recently ranked #70 among the top-80 open-enrolment executive programme providers globally for the year 2024. The feat has further consolidated the 29- year's IIM's footing in an exclusive list of the foremost providers of executive education in the world. The institute had also entered in global top-100 at Rank #77 for FT Masters in Management (MIM) 2023 Rankings, for its full time MBA programme. It further improved its position by 9 spots to reach Global Rank #68 in 2024. IIM Kozhikode has successfully delivered close to 1450 MDP programmes over the past two decades, training more than 55,000 participants from 200+ organisations, which also includes several Fortune 500 companies in the process.

# IIM Kozhikode Advantage From the Director's Desk

*Debashis Chatterjee*

**Prof. Debashis Chatterjee,**  
Director, IIM Kozhikode

The over-exploding interest in financial technology across the globe has made notions like payments, identity, money, and security be viewed through a different lens. Hence, the need of the hour is impactful FinTech research output and highly skilled personnel to serve the evolving financial services industry.

Businesses today have seen a complete transition than they used to run a decade ago. Recent industry reports suggest that close to 68% of business leaders in India have reported that having high agility reduced their costs by 25%. It is thus imperative for business leaders of today and the future to expand their knowledge across domains and proactively make decisions to be effective leaders. IIM Kozhikode programmes designed by world-class faculty with their cutting-edge thought leadership and industry-leading insights empower participants to manage and lead complex business challenges with confidence and data-driven, informed decision-making ability. Our growing global footprints acknowledged and accredited by leading institutions of the world are a testimony to the growth we have achieved in our nearly 29-year journey of academic excellence.

At this juncture, it is also pertinent to share that both the future and past are integral to the path taken by an institution on this journey of excellence. Having a wide, far-seeing vision is not an indulgence but an activity that is necessary to give meaning to our present, to give this Institution a sense of purpose, direction and imagination. That is why we have chosen to think in terms of what IIM Kozhikode will be able to contribute to India and the world some three decades from now with 'Vision 2047: Globalizing Indian Thought'. The Institute has set for itself a pre-eminent role with the above motto. The sheer scale, scope, and potential impact that India will have on 21<sup>st</sup> century business make us believe that this is a legitimate aspiration.

**Wishing you all the very best!**

# Indian FinTech in the Limelight

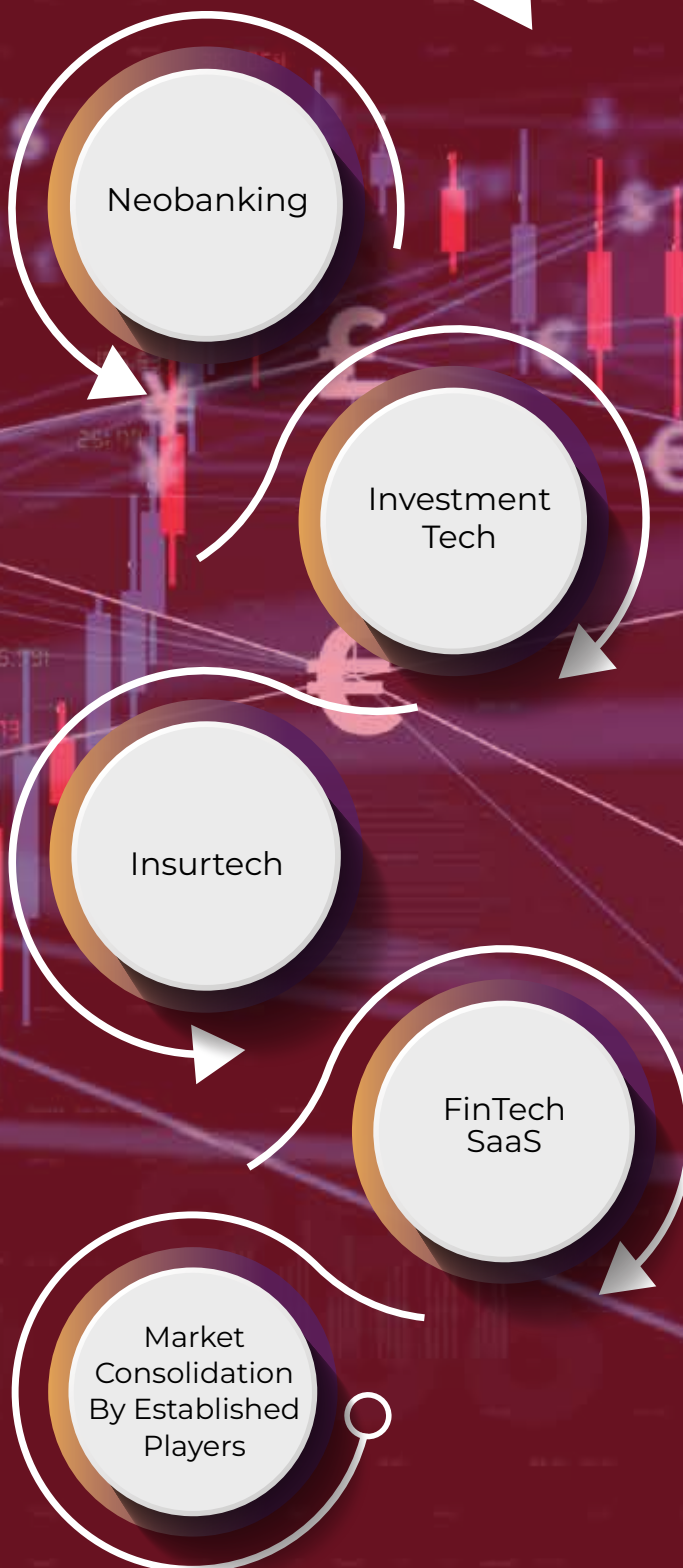

Universal Payments Interface (UPI), Bitcoins, Buy Now Pay Later (BNPL) model, Digital Banking, etc., have become an integral part of our day-to-day vocabulary, thanks to the FinTech ecosystem in the country. Today, India is the fastest-growing and third-largest FinTech economy in the world, with more than 2,100 startups. Whether it is payments, lending, insurance, or stockbroking, FinTech—supported by a favourable demographic of young people, tremendous growth of internet and mobile access, huge availability of capital, and government initiatives and regulations—is transforming India into a digitised country.

Supported by an expanding market for technology-enabled solutions, FinTech has garnered significant attention from venture capital investors and international funding since 2018. Growing at a CAGR of 31% during 2021–2025, India's overall FinTech market is estimated to be \$1.3 trillion by 2025. However, the growing adoption of financial technology products and services in India has unravelled new trends and challenges alike.

# Indian FinTech: Emerging Trends

# Programme at a Glance

In a world reshaped by financial disruption, where Big Data, predictive analytics, and transformative technologies are redefining the rules, the ability to stay ahead isn't just a skill—it's a necessity. That's where **IIM Kozhikode's Professional Certificate Programme in FinTech** comes in, now welcoming its eighth batch.

This 11-month journey isn't just another programme; it's an opportunity to dive deep into the heart of FinTech innovation. Imagine exploring the intricacies of blockchain and cryptocurrency, mastering financial modelling, or building machine learning algorithms. With a project-based curriculum, every step is hands-on, designed to immerse you in real-world applications.

From learning R programming and financial libraries to working with decentralised platforms like Ethereum, this programme equips you with the tools and confidence to tackle the most complex challenges in financial security, payments, and identity management.

But it doesn't stop there. Under the guidance of IIM Kozhikode's renowned faculty, you'll gain insights that go beyond technology—insights that prepare you to lead. By the end, you won't just understand FinTech trends; you'll be ready to shape them.

The financial world is evolving. Are you ready to evolve with it? Join us, and let's build the future of FinTech together.

# Frequently Asked Questions

## What type of programme is it? Who is this programme meant for?

PCPF is a 11-month certificate programme offered by IIM Kozhikode. Students, academicians, researchers, executives, and entrepreneurs interested in finance can take up this.

## Am I eligible to take up this course?

Candidates who have a Bachelor's degree (10+2+3 or 10+2+4) or an Integrated Master's degree (10+2+5) along with a minimum of three years of relevant work experience after completing the qualifying education are eligible.

## What would be the mode of learning?

There would be 3-hr weekly live-online lectures on Sunday, conducted by IIMK faculty. Additionally, you will have TWO days of learning at IIMK campus. The schedule of campus immersion will be informed later.

## What are the requirements to complete my application?

Admission requirements may vary by programme. It is best to check the programme's homepage and the admissions procedures to determine the exact credentials required for your specific programme. Generally, your academic credentials, work experience, and registration fee would be needed to successfully complete your application. Please check the Application Deadline.

## Is there a processing fee required with the application?

Yes. You have to pay a Processing Fee while submitting your application, without which your application will not be processed. You can check the "Costs and Payment Schedule" section in this brochure or on PCPF programme webpage.

### **I have submitted my application. What next?**

Your submitted application will be reviewed by IIMK, and selection will be based on your credentials and interview. After the selection process is complete, you will be notified of your selection, within a week.

### **What happens if I do not accept the admission offer?**

Your admission will be cancelled and you will not get the refund of your Processing Fee. You can check the notes below the “Costs and Payment Schedule” in this brochure or check the ‘Fees’ section on PCPF Programme Page.

### **Are there any provisions for the convenient payment of the course fee?**

Yes, you can pay your fee in convenient instalments. You can check the “Costs and Payment Schedule” section in this brochure or PCPF programme page.

### **What are the requirements to successfully complete the course?**

75% attendance of online modules is a must. Attending the in-campus modules is mandatory. Finally, fulfilling the requisite grade criteria, at the discretion of IIMK Faculty, in all the modules will enable you to successfully complete this programme.

### **What credentials will I earn after this programme?**

If you successfully complete this programme, You will receive a certificate from IIM Kozhikode and its ‘Executive Education Alumni’ status, which will give you access to network with professionals world-wide.

# Is This Programme Suited to You?

## Selection Criteria

- Based on corporate nominations and retail applications with credentials
- Final selection by IIM Kozhikode

## This programme is for you, if you are:

- A junior, middle, or top-level executive from BFSI, IT, PE, VC, and Investing firms
- An entrepreneur in the technology and finance space
- An academican, researcher, or apost-graduate student in finance
- An individual employed or who wish to pursue a career in financial services firms, insurance agencies, investment banks, etc.

## Admission Prerequisites

- Bachelor's Degree or equivalent (10+2+3 or 10+2+4) or Integrated Masters' Degree (10+2+5)
- Relevant work experience\* of a minimum of THREE years after completion of qualifying education from any of the above

# How You Will Benefit

- Mentorship from **renowned faculty** from IIMK
- Prestigious **IIM Kozhikode** certification
- Exclusive **Executive Education Alumni** status
- Invaluable **2 days of campus immersion**
- Collaborative peer learning and high-level **networking**

\*It is mandatory for participants to attend the campus visit for successful completion of the programme. The campus visit will be conducted subject to the evolving pandemic situation and will depend on government and institute regulations, advisories, and guidelines related to the pandemic. In case the campus module is not confirmed due to any reason, the same will be included in the total number of online sessions.

## How Will You Learn

### Online:

- **Direct-to-Device**  
(Desktop/Laptop/Tablet/Phone)
- **TEEL Interactive Learning (IL) Platform**
- **Total 130 hours of learning in which 118 will be live online sessions & 12 hours in campus.**
- **Real-life Case Study Discussions**  
**Experience Sharing**

### On-campus\*

2 Day - Campus Immersion

# Key Outcomes of Your Learning Journey

- Master the latest technologies such as blockchain, machine learning, and cloud computing in financial services
- Develop a strong foundation in cryptocurrencies, decentralised finance, and smart contracts
- Leverage AI and data analytics to drive smarter financial decision-making
- Build strategies for regulatory compliance using RegTech and risk management tools
- Gain practical experience in financial modelling and predictive analytics to optimise finance operations

# Broad Programme Content

## Part 1 Disruptions in FinTech

- Introduction to FinTech
- FinTech in Banking and Finance
- Digital Disruption in Financial Markets
- Innovation and Transformation in FinTech

	Time required (in Hrs.) and brief description of the sub-topics you will cover	Anything else like study material, access to software, cases, additional time for assign- ments (and how much time), any project
Understanding the Financial System, Introduction to FinTech, TechFin, FinTech in banking and Finance, Digital Banking		
Digital Disruption in Financial Markets, I nnovation and Transformation in FinTech		

## Part 2 FinTech Trends

- Digital Banking
- Robo-advising
- Peer-to-Peer Lending
- Reg-tech
- Insur-tech
- Payment-tech
- Blockchain
- Cryptocurrencies

	Time Hrs.. and brief description of areas you will cover for each including projects, assignments, if any	Anything else like study material, access to software, cases, additional time for assignments (and how much time), any project that is required	
Robo-advising, Payment Tech		HBP case Study	
Blockchain and Cryptocurrencies			
Payment Developments, P2P Lending, Crowdfunding and Payments, WealthTech and InsurTech, AI/ML and IoT, Cloud, GenAI, Web 3.0, AR/VR -			
Quiz (2numbers) Online			

## Part 3 Data-driven FinTech Analytics

- Credit Scoring and AI Implementation
- FinTech Innovation Using IOT
- Detection of Fraud
- Algorithm – Risk-based Pricing

	Time Hrs. and brief description of areas you will cover for each including projects, assignments, if any	Anything else like study material, access to software, cases, additional time for assignments (and how much time), any project that is required	
Credit Scoring and AI Implementation			
Detection of Fraud			
Business Innovation and Business Intelligence			
Banking 4.0 - Business Model Innovations in BFSI Sectors			
Project			

## Part 4 Financial Modelling

- Introduction to Finance Modelling
- Data Modelling in Excel
- Financial Functions in Excel
- Modelling Tools Usage and Simulation Technique
- Optimisation Models

	Time required (in Hrs.) and brief description of the sub-topics you will cover	Anything else like study material, access to software, cases, additional time for assignments (and how much time), any project	
Introduction to Finance Modelling	<ul style="list-style-type: none"> <li>▪ Introduction to financial modelling</li> <li>▪ Regression models – simple and multiple regression</li> </ul>	Weekly assignment on this topic	
Data Modelling in Excel	<ul style="list-style-type: none"> <li>▪ An overview of basic excel functions like IF functions, Vlookup, etc. required for managing big data</li> <li>▪ What-If Analysis - scenario manager, goal seek, data table, solver</li> </ul>	Weekly assignment on this topic	
Financial Functions in Excel	<ul style="list-style-type: none"> <li>▪ Time value functions in excel</li> <li>▪ Discounted cash flow statements</li> <li>▪ Sensitivity analysis</li> </ul>	Weekly assignment on this topic	
Modelling tools usage and simulation technique	<ul style="list-style-type: none"> <li>▪ Monte Carlo Simulations in Excel for derivative pricing</li> <li>▪ VaR and Expected Shortfall (ES) for measuring risk</li> <li>▪ Application of Monte Carlo Simulation for measuring VaR and ES</li> </ul>	Weekly assignment on this topic	

Optimisation Models	<ul style="list-style-type: none"> <li>▪ Markowitz Mean-Variance Optimisation model</li> <li>▪ Portfolio optimisation in Excel with 2 securities</li> <li>▪ Portfolio optimisation in Excel with more than 2 securities</li> <li>▪ Portfolio optimisation with and without shorting option</li> <li>▪ Construction of efficient frontier by including a risk-free security</li> </ul>	Weekly assignment on this topic	
Practical/Projects		Jointly with PKB	RA and PKB

## Part 5 Blockchain and Cryptocurrency

- Introduction to Blockchain and How it works?
- Blockchain in Banking
- Benefits and How Blockchain Will Impact the Financial Sector?
- Limitations of Blockchain
- Cryptocurrencies
- Digital Tokens or Blockchain Tokens
- Smart Contracts
- DAO (Decentralised Autonomous Organisations) and DAC (Decentralised Autonomous Corporations)

	Time Hrs. and brief description of areas you will cover for each including projects, assignments, if any	Anything else like study material, access to software, cases, additional time for assignments (and how much time), any project that is required	
Introduction to Blockchain and How it Works?	Cryptography, secret and public key cryptography, hashing, distributed ledger technology, proof of work, and how the blockchain works	Project on Blockchain will be needed to run parallelly to the course. 1 project for the whole module.	

Blockchain in Banking	Areas of blockchain and banking interaction. Use cases in world and in India.	HBP cases. In total 4, can be taken to 5	
Benefits and How Blockchain Will Impact the Financial Sector?	Blockchain in cross border payments, reshaping trade finance		
Limitations of Blockchain	Can blockchain be applied everywhere?		
Cryptocurrencies	Cryptos and blockchain Different types of cryptos - Bitcoin, Ethereum, Stablecoin, File Coin, and Dogecoin Central banking digital currencies and initial coin offerings		
Digital Tokens or Blockchain Tokens	NFTs – Working and creating tokens. Uses and misuses	HBP Case	
Smart Contracts	Smart contract applications, workings, and limitations. Exploring the platform. Demo Contract live made	Open-source platform Ethereum-based	
DAO (Decentralised Autonomous Organisations) and DAC (Decentralised Autonomous Corporations)	Rules and principles of DAO and DAC; Blockchain in DAO; Applications, limitations and regulations;		
Project			

## Part 6 Big Data Introduction

### Topics

Data Analysis- Big Data, Application in Finance

Python and ecosystem

Descriptive Analysis

Cross Section, Time Series- Financial Application

Predictive Modelling – Applications

## Part 7

## FinTech in the Real world

- Implementation Strategies for FinTech Providers
- FinTech as Key Levers for Banking Transformation
- Top Use Cases for FinTech Implementation in Banks
- User Experience Design for FinTech
- Service Design for FinTech
- Challenges of Doing B2B Business for FinTech
- Consumers Ask of FinTech
- How Should You Sell Your Proposition?
- To Whom Should You Sell Your Proposition?
- Navigating the Organisational Dynamics

	Time Hrs. and brief description of areas you will cover for each including projects, assignments, if any	Anything else like study material, access to software, cases, additional time for assignments (and how much time), any project that is required
Implementation Strategies for FinTech-Providers	Step-by-step process of setting up; Checklist for technical enablers; Checklist for regulatory compliance	
FinTech as Key Levers for Banking Transformation	Open banking; Traditional vs modern banking; Old vs present vs future technologies in banking internal and external processes; Technology of banking regulatory compliance	
Top Use Cases for FinTech Implementation in Banks	Trade finance, cross border payments, KYC implementations, new-age lending	HBP Cases (2)
User Experience Design for FinTech	UXD, UED, UD framework for FinTech apps; Duration, intensity, breadth, interaction, triggers, significance	

Service Design for FinTech	Service Design Maturity Model – explore, prove, scale, integrate and thrive; Service Maturity Indicators – people and resources, tools and capabilities, organisational structure; Metrics and deliverables	
Challenges of Doing B2B Business for FinTech	The fight between old world and new; How to make data talk; Tackling regulations and privacy issues; The problems of serving B2B firms	
Consumers Ask Of FinTech	Omnicommerce; Cost vs value; Financial supermarket; Trust and reliability, technological simplicity	
To Whom Should You Sell Your Proposition?	Target marketing; Digital customisation; Aaker's CBBE, Case study	
Navigating the Organisational Dynamics	Organisational preparedness, culture development; Employee Engagement; Strategic Mindset	

\*Topics are subject to change.

## Pedagogy

The teaching approach will be highly interactive taking advantage of the technological benefits. The pedagogy followed for the Programme will be a judicious blend of lectures, case studies, and participants experience sharing.

# Essential FinTech Toolkit

## Master the Tools That Drive the Industry

The **Professional Certificate Programme in FinTech by IIM Kozhikode** goes beyond theory, providing you with hands-on experience on the most current tools shaping the future of finance. The following tools will empower you to tackle real-world FinTech challenges and drive innovation.

Harness the power of data analysis and manipulation.

Build robust financial models and conduct insightful analyses.

Leverage machine learning algorithms for predictive modelling and data-driven decision-making.

Transform complex financial data into clear, compelling visualisations.

Explore the frontiers of conversational AI and its applications in FinTech.

Gain practical experience in developing and deploying blockchain solutions.

These tools, combined with a strong foundation in finance and technology, will equip learners with the practical skills and knowledge necessary to excel in the rapidly evolving FinTech sector. The programme's focus on hands-on learning ensures you're not just acquiring knowledge but also developing the expertise to apply it strategically, positioning you for a successful and impactful career in FinTech.

# Earn Programme Credentials

## Graduating Criteria

### Attendance

A minimum of 75% attendance is a prerequisite for the successful completion of the programme.

### Evaluation

Evaluation methodology is at the discretion of the faculty. The methodology includes online exams, case analysis, class contribution, and any other component as decided by the faculty. The programme may require participants to work on individual or group assignments and/or projects. The main objective of such assignments/projects will be to help the participants apply their conceptual learning in the programme to actual organisational decision scenarios. The participants will have to secure the minimum pass marks in the respective valuation components.

## Credentials You Earn

### Credentials You Earn

- Participants who successfully meet the evaluation criteria and satisfy the requisite attendance criteria, will be awarded a 'Certificate of Completion'.
- Participants who are unable to clear the evaluation criteria but have the requisite attendance will be awarded a 'Certificate of Participation'.
- Successful candidates will also be accorded 'IIM Kozhikode Executive Education Alumni' status.
