Programme Summary

Professional Certificate in Agentic AI for Leaders

 Institute Name Indian Institute of Management Kozhikode	 Programme Duration 17 Weeks	 Cost INR 1,40,000+GST/ AED 6234
 Learning Mode Online + Live masterclasses	 Weekly Effort 4-5 hours per week	 Faculty Led by renowned IIMK faculty and industry experts
 Future-Ready Curriculum Integrated learning to lead Agentic AI adoption	 Eligibility Minimum 5 years of work experience. Bachelor's degree or diploma 10+2+3	 Certificate IIM Kozhikode will award a certificate of completion to participants who successfully complete the programme and achieve a minimum score of 70%.
 Pedagogy: Pre-recorded lectures by IIMK faculty, dedicated module by IIMK Director, and 4 live masterclasses by industry experts.	 Campus Immersion: 1-day optional on-campus networking event* at an added cost.	

Learning Experience

- **Pre-recorded Videos** - Flexibility to learn at your own pace, around your busy schedule
- **High Quality Videos** - Great learning experience, even while on-the-move
- **On-demand Learning** - Re-watch any lesson/ concept for deeper understanding
- **World-class Faculty** - Learn from the best faculty and industry practitioners
- **Cohort-based Learning** - Networking & community interaction by using discussion boards

Frequently Asked Questions

Are there any LIVE sessions with the institute faculty in this programme?

The programme includes high-quality pre-recorded videos by esteemed IIMK faculty, exclusive module with IIMK Director, live masterclasses with industry experts and live online doubt clearing sessions.

What is the role of the Programme Leader? Are they institute faculty?

Programme leaders are Industry Practitioners/ Subject Matter Experts who help with doubt clearing, cover specific topics deeper and share real-world examples wherever needed. They are not faculty of the institute.

Who grades/ gives inputs on the assignments and projects?

The assignment grading frameworks are created in collaboration with the institute faculty and Emeritus grading team.

Is there a qualifying mark/ grade to get the final certification in this course?

Yes, a minimum score of 70% in all required assignments to successfully complete the programme and receive a digital certificate of completion.

What if I miss the assignments for a particular week? Can I attempt them later?

It is upon the faculty's discretion if any re-attempt of the quiz or assignment would be allowed and the evaluation methodology.

Who is the faculty for the LIVE Masterclass/ Online sessions/ Doubt Clearing sessions?

Live masterclasses and live doubt-clearing sessions are conducted by industry experts.

Is there an opportunity to visit the IIM Kozhikode campus?

Participants can opt for a one-day on-campus networking event* at IIM Kozhikode at an additional cost, offering an opportunity to interact with peers from different cohorts and experience the campus environment firsthand. The optional on-campus event fee is INR 13,000 per participant (twin-sharing accommodation) or INR 15,000 per participant (single accommodation).

What if I don't find the programme appropriate for me after starting the sessions? Can I seek a refund?

We encourage our learners to complete the programme to fully understand the concepts and derive valuable learning outcomes.

Should you still feel the need to stop your learning journey, a refund request can be initiated before the programme commencement. However, after the programme commences, fee becomes non-refundable.

What type of certificate will I receive?

Upon successful completion of the programme, you will receive a smart digital certificate. The smart digital certificate can be shared with friends, family, schools, or potential employers. You can use it on your cover letter, resume, and/or display it on your LinkedIn profile. The digital certificate will be sent approximately two weeks after the programme, once grading is complete.

How long will I have access to the learning materials?

You will have access to the online learning platform and all the videos and programme materials for 12 months following the programme end date. Access to the learning platform is restricted to registered participants per the terms of agreement.

The IIM Kozhikode Advantage

From the Director's Desk

Businesses today operate very differently than they did a decade ago. Recent reports suggest that nearly 68% of business leaders in India have reduced costs through greater organisational agility. As a result, leaders must continuously expand their knowledge and make informed decisions in a rapidly evolving environment. IIM Kozhikode's programmes, designed by world-class faculty and enriched with industry insights, equip participants to navigate complex business challenges with confidence. Our growing global footprint reflects the progress achieved over 30 years of academic excellence.

As organisations and leaders navigate rapid change, institutions must also balance their legacy with a clear vision for the future. Guided by 'Vision 2047: Globalising Indian Thought', IIM Kozhikode seeks to contribute meaningfully to India and the world over the coming decades. The Institute has set for itself a pre-eminent role guided by this vision. The scale, scope, and potential impact India is poised to have on 21st-century business reinforce our belief in this aspiration.

The rise of Agentic AI is reshaping how organisations operate, make decisions, and create value. As intelligent agent systems become increasingly integrated into business processes, leaders must be prepared to evaluate opportunities and scale Agentic AI responsibly across the enterprise. As Director of IIM Kozhikode, I am delighted to welcome you to the Professional Certificate in Agentic AI for Leaders. This programme has been designed to help leaders understand the evolving AI landscape and build the strategic, governance, and transformation capabilities required to harness Agentic AI for sustainable business impact.

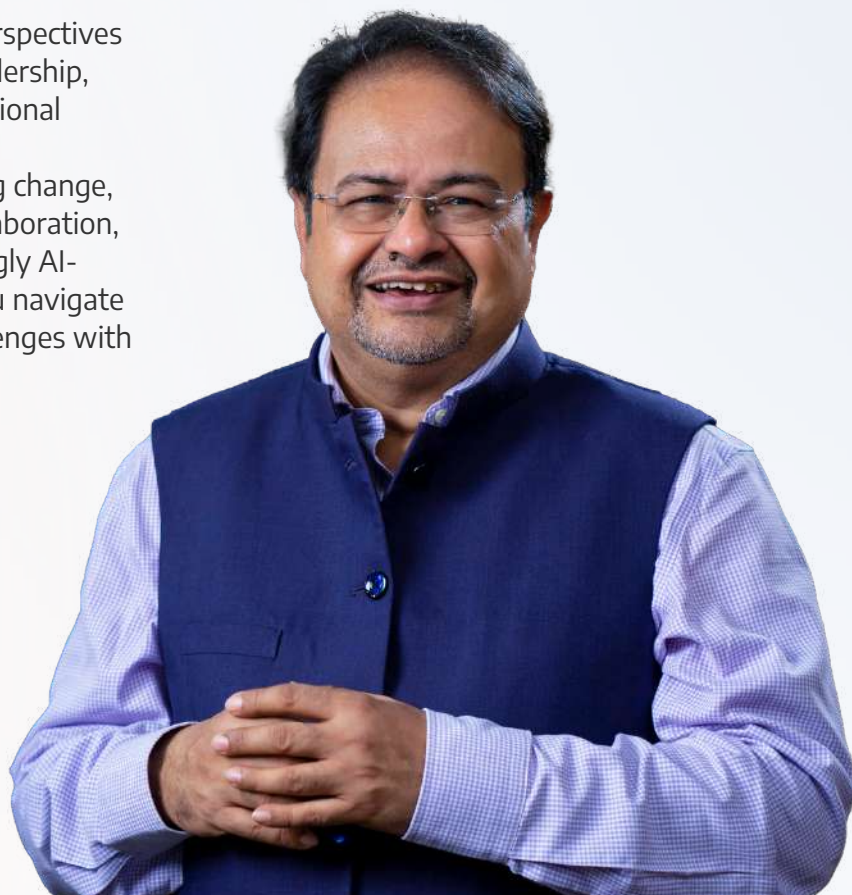

In this programme, I will share perspectives drawn from my experience in leadership, institution building, and organisational transformation.

These insights will explore leading change, fostering effective human-AI collaboration, and creating value in an increasingly AI-driven world. I hope they help you navigate emerging opportunities and challenges with greater clarity and conviction.

I trust this programme will broaden your perspective, strengthen your capabilities, and prepare you to create meaningful impact in the age of Agentic AI.

Wishing you all the very best.

Prof. Debashis Chatterjee

Director, Indian Institute of Management Kozhikode

Debashis Chatterjee

The Next **Competitive Advantage** Will Not Come from AI Adoption. It Will Come from How **Leaders Scale It.**

● The Reality

Artificial Intelligence is no longer a future trend. It is reshaping how organisations operate, compete, and create value. **According to McKinsey's State of AI 2025 report, 88% of organisations now use AI in at least one business function.** Yet only about **one-third have begun scaling AI initiatives** across the enterprise.

○ The Challenge

As organisations look to turn AI adoption into enterprise-wide impact, Agentic AI is becoming a strategic priority. Intelligent agents are helping organisations improve workflows, support decision-making, and drive operational efficiency. However, **many organisations are still figuring out how and where to use Agentic AI effectively.** For leaders, the challenge is understanding where it fits within the business and how it can be scaled responsibly.

● The Solution

The **Professional Certificate in Agentic AI for Leaders from IIM Kozhikode** is designed to help leaders build the knowledge and capabilities needed to lead this transformation. Over **17 weeks**, participants will gain a strategic understanding of **how Agentic AI can be applied across business functions**, how to make informed adoption decisions, and how to scale initiatives responsibly. Through online learning, live masterclasses, hands-on projects, and direct insights from IIMK faculty, participants will gain strategic frameworks and perspectives for leading Agentic AI initiatives with confidence.

The Leaders Who Scale Agentic AI Will Shape the Future

Intelligent agents are creating new possibilities for automating workflows, supporting decisions, and improving operational efficiency. While the opportunity is significant, organisations are still at different stages of adoption and maturity. The market trends below highlight how businesses are progressing from investment and experimentation to enterprise-wide scale, and where the biggest challenges continue to emerge.

92% investing in AI & 88% adopting

Organisations are increasing AI investments over the next three years while accelerating adoption across business functions.

Source: McKinsey, The State of AI, 2025

39% experimenting with Agentic AI

Businesses are moving beyond AI assistance towards more autonomous and intelligent systems.

Source: McKinsey, The State of AI, 2025

72% seeing business value

Early gains in productivity and performance are encouraging broader AI and Agentic AI deployment.

Source: McKinsey Global Survey on AI, 2025

**AGENTIC AI
SCALE GAP**

Despite strong investment, widespread adoption, and early productivity gains, organisations are still determining where intelligent agents fit and how they can deliver impact at scale.

Only 23% scaling Agentic AI

Organisations have begun scaling AI initiatives across the enterprise.

Source: McKinsey, The State of AI (AI Agents Survey Findings), 2025

The Leadership Opportunity

As Agentic AI moves from experimentation to enterprise adoption, leadership will become the key differentiator. Leaders who can identify the right opportunities, align Agentic AI with business priorities, and lead adoption responsibly will be better positioned to shape the future of their organisations. The IIMK Agentic AI leadership programme is designed to build these capabilities and navigate this transformation with confidence.

Programme Highlights

A Learning Experience Built for the Next Generation of Leaders.

Designed for leaders navigating the shift to Agentic AI, this 17-week programme combines strategy, implementation, and practical application to help participants identify opportunities, drive adoption, and create business value at scale.

15 weeks of pre-recorded lectures from esteemed IIMK faculty

4 Live masterclasses on Agentic AI in leadership by industry experts

Exclusive module with the Director of IIM Kozhikode

5+ In-demand Agentic AI tools and platforms

4 applied projects based on real-world Agentic AI scenarios

Agentic AI applications in leadership across business functions

16 live doubt clearing sessions by industry experts

1 week of hands-on Agentic AI powered capstone project

1-day optional networking event at IIM Kozhikode campus*

Assignments, quizzes and discussion boards

Notes:

- The programme highlights presented above are approximate and subject to change depending on the availability and expertise of the teaching faculty, as well as the programme's desired outcomes.
- The live online doubt solving sessions will be taken by programme leaders.
- *The optional on-campus networking event is a one-day programme that allows learners to connect with peers from different cohorts at the IIM Kozhikode Campus. The fee for this event is INR 13,000 per day as the optional in-campus fee for twin-sharing mode of accommodation and Rs. 15,000 per day for single accommodation.

Who Is This Programme For?

The 17-week IIMK Agentic AI leadership programme is designed for **mid to senior professionals** who lead teams, functions, and business transformation initiatives and want to understand how Agentic AI can transform workflows, decision-making, and business operations.

No coding experience is required. Designed for both technical and non-technical leaders.

Eligibility: Minimum **5 years of work experience** and a graduate degree or diploma (10+2+3) in any discipline.

Built Around the Capabilities Modern Leaders Need: **Functional Applications**

This programme helps participants explore how Agentic AI can be applied to real-world business scenarios across functions and identify opportunities for business impact. The examples below demonstrate how Agentic AI can help address common business challenges across key functions.

Business Functions	A Common Leadership Scenario	Agentic AI Opportunity
Strategy & Corporate Planning	"By the time our annual plan is approved, market conditions have already changed."	Monitor market signals, evaluate scenarios, and support faster strategic decision-making.
Operations & Process Excellence	"Our teams are constantly firefighting operational issues instead of focusing on improvement."	Automate workflows, optimise processes, and proactively identify bottlenecks.
Marketing & Customer Experience	"We have customer data but delivering personalised experiences at scale is a challenge."	Personalise engagement, optimise campaigns, and enhance customer experiences.
Product, Innovation & Growth	"We are under pressure to innovate faster, but every new initiative adds risk and complexity."	Accelerate product discovery, market research, and innovation decision-making.
Finance & Business Performance	"Forecasts often change faster than our ability to respond and adjust plans."	Improve forecasting, automate financial workflows, and support business planning.
Human Resources & Workforce Transformation	"We are expected to build an AI-ready workforce while managing change across the organisation."	Enhance workforce planning, streamline talent processes, and support organisational adoption.

Live Masterclasses

Get leadership insights directly from the industry experts.

A key feature of the programme is the opportunity to **learn directly from the industry experts** through four exclusive live masterclasses. These sessions will offer strategic perspectives on innovation, leadership, and the evolving role of Agentic AI in organisations.

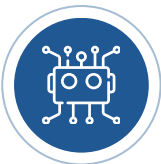

Humans and Agents: Collaborative Agentic AI Workflows

Learn how to build effective human-AI collaboration by identifying what to automate, what to augment, and where leadership intervention matters. Explore governance, accountability, and trust in AI-assisted decision-making and workflows.

Leadership in the Age of Autonomous Agents

Examine how leadership must evolve in organisations powered by intelligent systems. Learn to drive AI adoption, manage change and risk, build AI-enabled teams, and create roadmaps for sustainable business transformation.

Agentic AI Tool Stack: Frameworks, Platforms & Ecosystems

Understand the evolving Agentic AI ecosystem and evaluate platforms through a business lens. Learn how to integrate AI into existing workflows and make informed build, buy, or partner decisions for scalable adoption.

Agentic AI Across Industries: Sectoral Innovations and Use Cases

Explore how Agentic AI is transforming industries including BFSI, healthcare, retail, e-commerce, operations, and supply chains. Learn from real-world use cases to identify what works, what fails, and how to adapt AI initiatives to your business context.

- All product and company names are trademarks or registered trademarks of their respective holders. Their use does not imply any affiliation with or endorsement by them.
- No subscriptions or paid access to tools/software will be provided as part of this programme.
- The tools covered may be updated, replaced, or substituted with equivalent alternatives based on evolving industry practices and programme requirements.
- Claude and n8n will be covered through hands-on application. Other tools will be covered conceptually.

Apply Agentic AI to Real-World Business Challenges

Leadership Projects

Move beyond theory and apply Agentic AI to real-world business challenges. Through hands-on projects, explore how intelligent agents can be designed, deployed, and scaled to create business value.

Design a Business-Ready Agentic Use Case

Identify a real organisational problem and design an Agentic AI solution by defining agent roles, workflows and platform choices. Emphasis is on translating GenAI concepts into agentic business value.

Build an Enterprise Workflow Agent with Human-in-the-Loop

Configure a no-code enterprise workflow agent integrated with CRM/ERP-like systems, incorporating approvals, escalation, and human oversight into the process.

Run an Agent-Powered Product or Growth Sprint

Execute a simulated product innovation or marketing growth sprint using AI agents for research, insight generation, content creation, and CX personalisation.

Assess Agent Performance, Risk & Organisational Readiness

Evaluate an Agentic AI deployment from a leadership perspective, covering KPIs, performance monitoring, governance, security risks, and change management readiness.

Note:

The topics mentioned above are indicative and subject to change based on industry relevance and programme requirements.

From Foundations to Leadership: A Structured Learning Journey

Pillar 1: Foundations of AI and Agentic AI

Build a strong understanding of Agentic AI, intelligent agents, and the technologies shaping the future of business. Learn how to evaluate opportunities and make informed decisions on AI adoption.

Key Skills:

AI Strategy

AI Opportunity Assessment

Technology Evaluation

Platform Selection

Business Case Development

Pillar 2: Leading AI Integration Across the Enterprise

Explore how Agentic AI can be applied across business functions to improve productivity, decision-making, customer experiences, and operational efficiency.

Key Skills:

Workflow Transformation

Enterprise AI Integration

Process Automation

AI-Driven Decision-Making

Customer Experience Innovation

Cross-Functional AI Adoption

Pillar 3: Leading AI Transformation and Optimisation

Learn how to move from experimentation to enterprise-wide AI adoption by building AI-ready organisations, driving change, and scaling impact across the business.

Key Skills:

AI Transformation Leadership

AI Adoption & Scaling

Human-AI Collaboration

AI Operating Models

Business Impact Measurement

AI Implementation & Execution

Pillar 4: Leadership, Risk and Governance

Develop the leadership capabilities needed to govern AI responsibly, manage risks, ensure compliance, and build competitive advantage in an AI-driven future.

Key Skills:

Responsible AI

AI Governance

Risk & Compliance Management

Cybersecurity Risk Management

Strategic Leadership

Competitive Advantage Creation

Learn from Distinguished Faculty at IIM Kozhikode

Prof. Omkumar Krishnan

Professor of Marketing Management

Prof. Omkumar Krishnan is a distinguished faculty member at IIM Kozhikode specialising in marketing strategy, branding, and consumer behaviour. His research and teaching focus on evolving consumer markets, brand development, and strategic business growth, bringing deep academic insight and practical relevance to executive education.

Prof. M. P. Sebastian

Professor of Information Systems

Prof. M. P. Sebastian is a distinguished Professor of Information Systems at IIM Kozhikode whose work focuses on Generative AI, digital transformation, and digital innovation. Through his research and thought leadership, he explores how emerging technologies are reshaping organisations, decision-making, and the future of business.

Assistant Prof. Dharun Kasilingam

Assistant Professor of Marketing Management

Prof. Dharun Kasilingam is an Assistant Professor of Marketing Management at IIM Kozhikode specialising in marketing analytics, consumer behaviour, and technology-driven business insights. His research leverages advanced analytics to understand evolving consumer markets and digital adoption, bringing strong analytical rigour and practical relevance to executive education.

Earn a Certificate from IIM Kozhikode

Validate your Agentic AI and leadership capabilities with a prestigious certificate from the Indian Institute of Management Kozhikode (IIMK), one of India's leading management institutions.

Upon successful completion of the programme and meeting the evaluation requirements, participants will receive a prestigious digital certificate from IIM Kozhikode. Showcase this credential on your resume, LinkedIn profile, and professional portfolio to demonstrate your expertise in Agentic AI, AI-driven transformation, and responsible AI leadership. The credential reflects your ability to navigate emerging AI opportunities and lead organisational transformation.

Notes:

- All certificate images are for illustrative purposes only and may be subject to change at the discretion of IIM Kozhikode.
- A participant with less than 70% in the overall evaluation will not be awarded any certificate.

An Exclusive On-Campus Experience at IIM Kozhikode

- The Professional Certificate in Agentic AI for Leaders offers an **optional one-day networking event at the IIM Kozhikode campus**, providing participants with an opportunity to experience the institute's academic environment, connect with a diverse community of professionals, and engage with the IIM Kozhikode ecosystem beyond the online programme.
- Designed to complement the online learning experience, the event enables participants to interact with faculty, network with peers from different cohorts, and build meaningful professional connections. The optional on-campus event fee is INR 13,000 per day for twin-sharing accommodation and INR 15,000 per day for single accommodation.

What Will You Achieve after 17 weeks of the programme?

01

Identify high-impact Agentic AI opportunities using enterprise use cases, opportunity assessment frameworks, and business value mapping models.

02

Design AI-driven workflows: With exposure to 5+ Agentic AI tools, automation platforms, and real-world applications.

03

Build an enterprise adoption roadmap through implementation frameworks, AI maturity models, and transformation planning exercises.

04

Lead AI-driven organisational transformation by drawing on leadership perspectives from IIMK Director, industry masterclasses, and human-AI collaboration frameworks.

05

Govern and scale Agentic AI responsibly using practical frameworks for Responsible AI, risk management, compliance, and enterprise governance.

06

Turn Agentic AI initiatives into business value through 4 applied projects, a hands-on Agentic AI-powered capstone, and enterprise impact assessment approaches.

Learning Journey

Orientation Week

The first week is orientation week. During this week you will be introduced to the other participants in the class from across the world and you will learn how to use the learning management system and other learning tools provided.

Weekly Goals

As you begin the programme, meet your learning goals set for the week. The goals would include completing the assignments, which have weekly deadlines.

Self-paced, Flexible Online Learning

Learn online via pre-recorded videos from renowned IIMK faculty in a high-impact, 17-week journey with a learning commitment of 4-5 hours/ week. Faculty will not be a part of weekly live sessions or any other live interaction in this programme.

Live Doubt Solving Sessions

The programme features weekly live online sessions with industry experts/programme leaders who are available to help you clarify your doubts pertaining to the content. Assignments are graded either by programme leaders and/or by the Emeritus grading team.

Timely Follow up and Learning Support

The Emeritus Programme Support team will follow-up over emails and phone calls with learners who are unable to submit their assignments on time.

Programme Details

Starting Date:	23 rd September 2026
Programme Duration:	17 weeks
Programme Fee:	INR 1,40,000 + GST / AED 6234
Campus Immersion:	1-day optional on-campus event at an added cost.*
Eligibility:	Bachelor's Degree or Diploma 10+2+3 with minimum 5 years of work experience

Notes:

- Any extra payment during the tenure of the programme will have to be borne by the students (such as arrear fees, registration fees, payment gateway charges and taxes, etc).
- The actual programme schedule will be announced closer to the programme start. GST (currently @ 18%) will be charged extra on these components. Additional convenience charges will be applicable on instalment payments
- *The optional on-campus networking event is a one-day programme that allows learners to connect with peers from different cohorts at the IIM Kozhikode Campus. The fee for this event is INR 13,000 per day as the optional in-campus fee for twin-sharing mode of accommodation and Rs. 15,000 per day for single accommodation.

About IIM Kozhikode

#3

**NIRF India Ranking 2025,
Management Category**

Established in 1996, with its first Post Graduate Programme (PGP 01) officially initiated in 1997, the Indian Institute of Management Kozhikode (IIMK) is on a high-growth trajectory today, offering a wide range of academic programmes in the field of management education. These include the Fellow Programme in Management, Executive PG Programmes, Management Development Programmes, and Faculty Development Programmes. In 2013, IIMK set up a satellite campus at Infopark, Kochi, dedicated to Executive Education. The institute also has the unique distinction of launching a PhD (Practice Track) programme for working professionals, besides introducing dynamic programmes such as the one-year Post Graduate Programme in Business Leadership (2019), MBA in Finance, and MBA in Liberal Studies & Management (2020). IIMK is also home to IIMK LIVE – a first-of-its-kind start-up incubation programme, the Indian Business Museum and seven Centres of Excellence.

IIM Kozhikode has retained its 3rd position in the NIRF India Rankings 2025 (Management) — marking the third successive year among India's Top 3. The institute also features regularly among top global institutions for its flagship MBA (PGP) and EMBA (EPGP) in the QS World University Rankings. IIMK has leapfrogged 100 spots to secure a place in the Top 151–200 Institutes in Business & Management Studies globally, as per the QS World University Rankings by Subject 2024. In a remarkable boost to IIM Kozhikode's global credentials, newly launched programmes like PGP-BL (2019) and PGP-Fin (2020) have also entered the Top 151+ programmes worldwide in their respective QS Rankings. IIM Kozhikode is globally accredited by EQUIS (EFMD) and AMBA (UK).

IIM Kozhikode made its debut in the prestigious Financial Times Rankings in 2023 and was recently ranked #76 globally in the Financial Times Open-Enrolment Executive Education Rankings 2025. The feat has further consolidated the 30-year's IIM's footing in an exclusive list of the foremost providers of executive education in the world. The institute has also consistently featured among the Top 70 MBA programmes globally in the Financial Times Masters in Management (MiM) Rankings for its flagship PGP. Over the past two decades, IIM Kozhikode has successfully delivered close to 1,450 MDP programmes, training more than 55,000 participants from 200+ organisations, including several Fortune 500 companies.

About Emeritus

Emeritus partners with top global universities to offer accessible, high-quality online courses that empower professionals to upskill, innovate, and excel in their careers, with a focus on practical, real-world learning.

3,50,000+

Learner Base

Emeritus learner base spread across 80+ countries, is a testament to the wide-reaching impact of our future-focused programmes.

88%

Career Impact

The percentage of learners who state that an Emeritus program has had a positive impact on their career and professional development, with 9 out of 10 witnessing the impact within 12 months.

80+

Partner Institutions

We collaborate with more than 80 top-tier universities across the United States, Europe, Latin America, Southeast Asia, India, and China to make world-class education globally accessible.
