The IIM Kozhikode Advantage

From The Director's Desk

Businesses today have seen a complete transition than they used to run a decade ago. Thus, it is imperative for business leaders today to expand their knowledge across domains and proactively make decisions to be effective leaders. IIM Kozhikode programmes are designed by world-class faculty with cutting-edge thought leadership and industry-leading insights that empower participants to manage and lead complex business challenges confidently. Our growing global footprint is acknowledged and accredited by leading institutions and is a testimony to the growth we have achieved in our 28-year journey of academic excellence.

At this juncture, it is also pertinent to share that both future and past are integral to the path taken by an institution on this journey of excellence. Having a wide, far-seeing vision is not an indulgence but an activity that is necessary to give meaning to our present, and to give this Institution a sense of purpose, direction and imagination. That is why we have chosen to think in terms of what IIM Kozhikode will be able to contribute to India and the world some three decades from now with 'Vision 2047: Globalizing Indian Thought'. The Institute has set for itself a pre-eminent role with the above motto. The sheer scale, scope and potential impact that India will have on 21st-century business makes us believe that this is a legitimate aspiration.

At IIM Kozhikode, we believe in fostering inclusive leadership and empowering women leaders to drive transformative changes in today's complex business landscape. The **Women Leadership Programme** is a testament to our commitment to nurturing a new generation of leaders who can transcend traditional boundaries, bring unique perspectives, and champion inclusive growth in organizations across industries.

Our aim with this programme is to create a supportive environment where women leaders can gain actionable insights, hone critical skills, and build networks that will serve them throughout their careers. With access to our distinguished faculty, innovative curriculum, and industry-focused modules, participants will leave this programme equipped not only to excel in their roles but also to inspire and lead others effectively.

Learn to Lead with Confidence and Impact

Why this Programme Matters

Despite progress, only **12%** of CXO roles and **1.6%** of Fortune 500 leadership positions in India are held by women. This gap highlights the urgent need for women's leadership initiatives, addressing both societal biases and organisational barriers to create inclusive workplaces.

The landscape of women in leadership roles in India has seen notable progress despite challenges. Women's representation in the workforce has improved from 23.9% in 2016 to 26.8% in 2024. As of early 2024, **women hold 23.2% of leadership roles in Indian corporates.**

“There is now greater empowerment of women to make decisions to support their own personal and career priorities, including flexible working arrangements, and acceptance of different models of leadership that creates space for women to show up as their authentic selves in leadership roles.”

Partner and Private Equity Leader, Grant Thornton Canada
