The IIM Kozhikode Advantage

From The Director's Desk

Businesses today have seen a complete transition than they used to run a decade ago. IIM Kozhikode programmes designed by world-class faculty with their cutting-edge thought leadership and industry-leading insights empower participants to manage and lead complex business challenges with confidence and informed decision-making ability. Our growing global footprints acknowledged and accredited by leading institutions of the world are a testimony to growth we have achieved in our 28-year journey of academic excellence. At this juncture, it is also pertinent to share that both future and past are integral to the path taken by an institution on this journey of excellence. Having a wide, far-seeing vision is not an indulgence but an activity necessary to give meaning to our present and give this Institution a sense of purpose, direction, and imagination. That is why we have chosen to think about what IIM Kozhikode will be able to contribute to India and the world some three decades from now with 'Vision 2047: Globalizing Indian Thought'. The Institute has set for itself a pre-eminent role with the above motto. The sheer scale, scope, and potential impact that India will have on 21st-century businesses makes us believe that this is a legitimate aspiration.

For the ambitious, future-thinking CEO, IIMK's programme expands many horizons. Firstly, heighten your credibility with a certificate from one of India's premier business schools. Secondly, get both a bird's eye view of macro drivers and a trench-view of operational realities to drive long-term value. This dual view is made possible by immersion in every CEO strong suit, from gauging opportunity and powering people to deconstructing costs and embracing new tech. Thirdly, access a global network of seasoned leaders in an avid learning environment, capped by two online certificate courses from Kellogg School of Management, a top-ranked US university. This multi-dimensional experience will forge the well-rounded, decisive CEO of today, capable of navigating a high-stakes global arena.

Wishing you all the very best!

Indian Institute of Management Kozhikode

Programme Overview

Amidst market volatility, geopolitical tensions, and disruptive business models, a pioneering opportunity awaits today's CEOs. To go beyond weathering the present inflationary and recessionary storm and boldly redefine market paradigms. The 2023 Gartner CEO Survey shows the recent short-term reactivity giving way to relative stability, allowing leaders to return to long-term planning. Close to 50% of CEOs cite growth as their top priority, with a focus on the next three- to seven-year strategy. At the same time, profitability and productivity are also key, with 34% of CEOs strongly pursuing tech related investments in analytics, AI & automation to unearth next-level productivity and bottom-line gains. In other words, modern CEOs want to aim for the stars with business growth and profitability at the forefront, while keeping both feet on the ground.

To enable modern-day CEOs transformative journey, IIM Kozhikode has launched its **Chief Executive Officer Programme**. An orbit-shifting journey, it equips leaders with the strategic and innovative acumen to steer their ships towards long-term success in an ever-evolving business landscape. The programme delves into CEO essentials: financial strategies, supply chain excellence, brand leadership, and innovative technologies including AI and GenAI. Participants also learn 'ace up the sleeve' CEO skills: negotiation, conflict resolution, crisis leadership, and global market strategies. Add corporate governance, cyber security, and sustainability, and you can aim to drive transformation that seizes the present and secures the future. Participants will also gain global advantage through two online certificate courses from Kellogg Executive Education - AI Strategies for Business Transformation and Leading Growth Strategy.
