IIM Kozhikode Advantage

From the Director's Desk...

IIM Kozhikode programmes designed by world-class faculty with their cutting-edge thought leadership and industry-leading insights empower participants to manage and lead complex business challenges with confidence and data-driven, informed decision-making ability. Our growing global footprints acknowledged and accredited by leading institutions of the world are a testimony to growth we have achieved in our 25-year journey of academic excellence.

At this juncture, it is also pertinent to share that both future and past are integral to the path taken by an institution on this journey of excellence. Having a wide, far-seeing vision is not an indulgence but an activity that is necessary to give meaning to our present, to give this Institution a sense of purpose, direction and imagination. That is why we have chosen to think in terms of what IIM Kozhikode will be able to contribute to India and the world some three decades from now with 'Vision 2047: Globalizing Indian Thought'. The Institute has set for itself a pre-eminent role with the above motto. The sheer scale, scope and potential impact that India will have on 21st century business makes us believe that this is a legitimate aspiration.

For candidates, it is pertinent to understand that strong financial analysis and management is the bedrock of corporate profitability. It can not only help meet tomorrow's business goals, but also maximise revenue and minimise waste, and can be invariably used to leverage rare opportunities. As businesses across geographies gear up to manage the evolving financial landscape, the need for well-trained and competent finance professionals is more acute than ever. The FAFM programme has thus been designed keeping the above objectives in mind.

Wishing you all a very happy learning experience at IIM Kozhikode!
