The IIM Kozhikode Advantage

From The Director's Desk

Businesses today have seen a complete transition than they used to run a decade ago. IIM Kozhikode programmes designed by world-class faculty with their cutting-edge thought leadership and industry-leading insights empower participants to manage and lead complex business challenges with confidence and informed decision-making ability. Our growing global footprints acknowledged and accredited by leading institutions of the world are a testimony to growth we have achieved in our 28-year journey of academic excellence.

At this juncture, it is also pertinent to share that both future and past are integral to the path taken by an institution on this journey of excellence. Having a wide, far-seeing vision is not an indulgence but an activity that is necessary to give meaning to our present, to give this Institution a sense of purpose, direction and imagination. That is why we have chosen to think in terms of what IIM Kozhikode will be able to contribute to India and the world some three decades from now with 'Vision 2047: Globalizing Indian Thought'. The sheer scale, scope and potential impact that India will have on 21st century business makes us believe that this is a legitimate aspiration.

Strategy has evolved from its roots in military traditions to becoming a fundamental corporate function. It is attracting top talent, nurturing and cross-pollinating leaders, and solidifying business positions in a world of accelerated change. Global Corporate Powerhouses are dismissing conventional strategic planning in favour of disrupters and independent-minded leaders. That's why IIM Kozhikode has designed the launched the Advanced Strategic Management programme for experienced professionals who have been persistently carving and shaping their organisations for long-term success. From formation, implementation, leadership, and innovation, Prof M. K. Nandakumar and his team of faculty will crack open the nuts and bolts of strategy to help you lead your organisation into the dawn of strategic disruption.

It is time to evolve into leaders who want to redefine their organisation's strategy through proven frameworks and best practices in business strategy, decision-making, future business models, and rise to senior leadership positions by enrolling in IIM Kozhikode's Advanced Strategic Management programme.

Wishing you all the very best!

Prof. Debashis Chatterjee

Programme Director's Message

“ The strategy development process in organisations necessitates the involvement of managers from all functional areas. The success of this holistic process largely depends upon the contributions made by the managers for developing effective strategies. Research in the field of strategic management has evolved significantly over the years, and the research findings have been translated into practical prescriptions that are useful for managers. Based on these prescriptions, many tools and frameworks used for conducting various strategic analysis have been developed. This programme introduces the necessary tools and frameworks to the participants and provides them with an opportunity to conduct strategic analyses in different contexts. The whole programme is entirely hands-on with the primary objective of providing the required knowledge and skills to the participants for developing their ability to think strategically and to make vital strategic decisions. Many cases based on different industries and decision-making scenarios will be discussed in this programme. These case discussions are very helpful in enhancing strategic thinking skills. A capstone project included in the programme provides an opportunity to apply the critical strategic concepts to tackle major management issues faced by organisations. The strategy simulation included in this programme provides an opportunity for the participants to make critical strategic decisions in a virtual environment. The simulation helps participants to sharpen their strategic decision-making skills.
