Indian Institute of Management Kozhikode

Globalizing Indian Thought

BATCH - 5

ADVANCED MANAGEMENT PROGRAMME FOR IT PROFESSIONALS

10 Months, Live Online Sessions

// IIM Kozhikode Advantage

From the Director's Desk...

Businesses today have seen a complete transition than they used to run a decade ago. IIM Kozhikode programmes designed by world-class faculty with their cutting-edge thought leadership and industry-leading insights empower participants to manage and lead complex business challenges with confidence and informed decision-making ability. Our growing global footprints acknowledged and accredited by leading institutions of the world are a testimony to growth we have achieved in our 25-year journey of academic excellence.

At this juncture, it is also pertinent to share that both future and past are integral to the path taken by an institution on this journey of excellence. Having a wide, far-seeing vision is not an indulgence but an activity that is necessary to give meaning to our present, to give this Institution a sense of purpose, direction and imagination. That is why we have chosen to think in terms of what IIM Kozhikode will be able to contribute to India and the world some three decades from now with 'Vision 2047: Globalizing Indian Thought'. The sheer scale, scope and potential impact that India will have on 21st century business makes us believe that this is a legitimate aspiration.

Data is one of the most important commodities in the world today and the knowledge of how to analyse, extrapolate and segregate it is of paramount importance across industries. The right use of data can help propel your organisation and career to new heights, to make the most of this commodity, the Indian Institute of Kozhikode has launched the Advanced Data Analytics for Managers programme. This programme will empower Team Leads, Managers and Business Head to elicit the most out of data through topics such as Data Visualisation, Statistical Inferences, Basics of Modelling, Text Mining & Social Media Analysis among others. This programme curriculum is designed around the importance of being industry-ready in a data-driven future.

Wishing you all the very best!

Debashis Chatterjee

Prof. Debashis Chatterjee,
Director IIM Kozhikode

// Overview

The USD 191 billion Indian IT industry is slated to clock USD 350 billion in revenue by 2025 (IBEF, 2020). This growth is fueled by an increasing focus on digital transformation and an uptick in emerging technologies disrupting 'business-as-usual' processes across industries.

The **Advanced Management Programme for IT Professionals** from the Indian Institute of Management Kozhikode (IIM Kozhikode) will equip you with the critical cross-disciplinary skills in information technology and business management. You will gain technical knowledge as well as strategic and tactical skills to drive business innovation and competitive strategy in the IT industry. You will also learn to incorporate IT strategies from the perspective of technological disruptors such as AI, ML, data analytics and cloud computing with the business goals of your organisation. On successfully completing the programme, you will be an industry-ready professional, while being eligible for the prestigious IIM Kozhikode Executive Alumni Status.

Starts On

December 30, 2022*

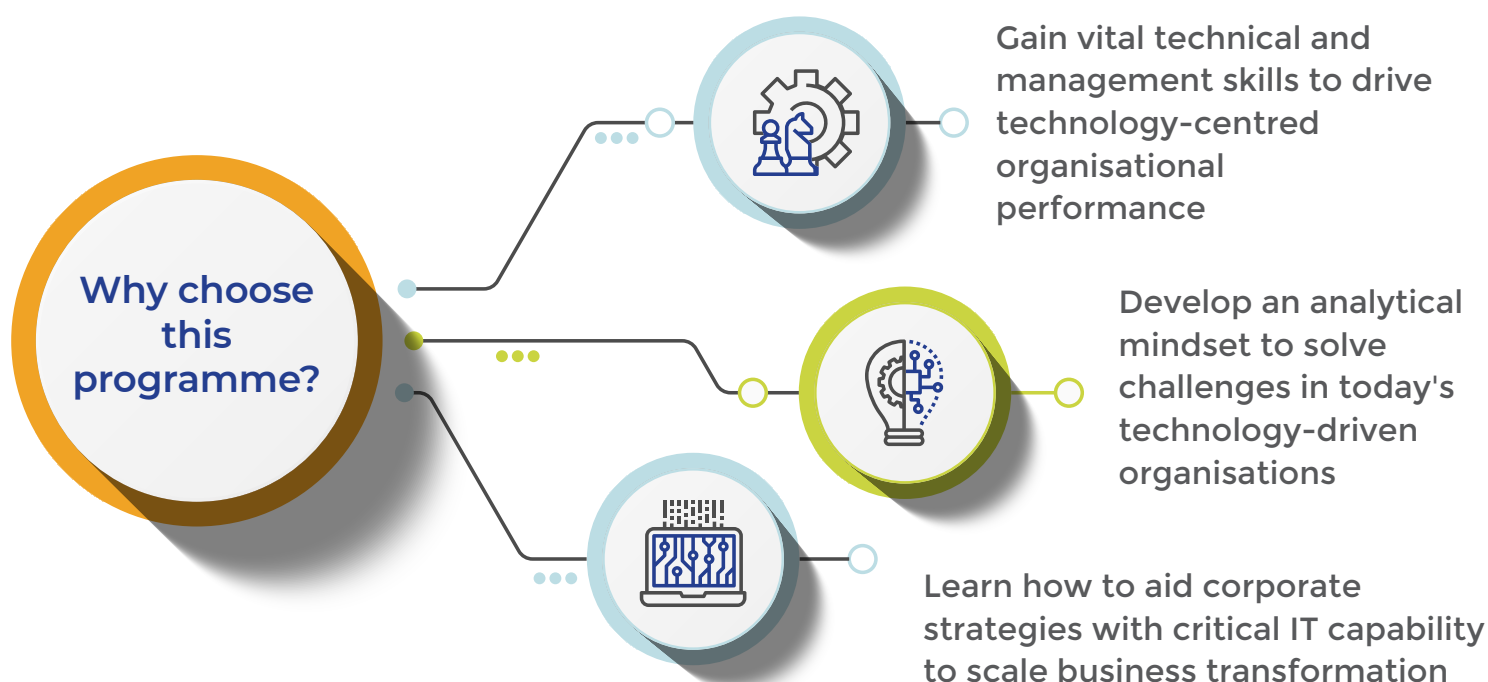

Duration

10 Months

Programme Fee

INR 1,85,000 + GST

**Begins with an introduction to the platform*

- Group Project - Allocation, Guiding, Presentation and Evaluation

Note:
- Modules/ topics are indicative only, and the suggested time and sequence may be dropped/ modified/ adapted to fit the total programme hours.
- Recordings from live sessions will be available to the participants for the duration of the programme.

// Real-world Case Studies

Alexa: A Pandora's Box of Risks *by Russell Walker (Kellogg School of Management)*

Amazon's Echo and Echo Dot smart speakers enabled the penetration of artificial intelligence (AI) voice assistants into the everyday lives of millions of people. Amazon had developed significant new capabilities for Alexa and made substantial progress in monetising its digital voice assistant. This case explores Amazon's challenges in continued consumer acceptance and precluded detrimental government or regulatory action.

ByteDance Beyond China: Leveraging Consumer Artificial Intelligence (AI) from Toutiao to Musical.ly and TikTok *by Jason P. Davis, Anne Yang & Minh Vo (INSEAD)*

ByteDance, the Chinese company behind TikTok made headline news in 2018 when it was valued at \$75 billion to become the world's most valuable start-up. The case explores the following questions: What role does AI play in ByteDance's Toutiao and TikTok products? How does AI create value for consumers of these products? How difficult is it for competitors to imitate the success of Toutiao and TikTok?

Artificial Intelligence: Stitch Fix A Blue Ocean Retailer in the AI World *by W. Chan Kim, Renee Mauborgne & Melanie Pipino (INSEAD)*

Katrina Lake managed to turn a Harvard Business School class project into Stitch Fix, a US \$1.5 billion company. Stitch Fix provides personalised styling service of selected clothing and accessories based on its customer preferences and constraints. This case explores how Katrina Lake unlocked a differentiated and low-cost offering leveraging AI and the brilliance of stylists to disrupt the retail market space.

Note: Listed above are a few indicative case studies and the programme will include additional case studies relevant to the respective modules.

// Learning Outcomes

Grasp core managerial concepts to successfully lead technology-driven organisations

Develop relevant technological and analytical capabilities to create and optimise complex information systems

Gain exposure to strategic perspectives in IT security, risk management, data analytics and business innovation

Explore how cloud computing, IoT, Machine Learning and Artificial Intelligence drive technological disruption

Strike a balance between contemporary technical knowledge and managerial skills while advancing your business acumen

Understand how to seamlessly manage and apply complex IT processes that aid overall corporate strategy

// Past Participant Profiles

Work Experience

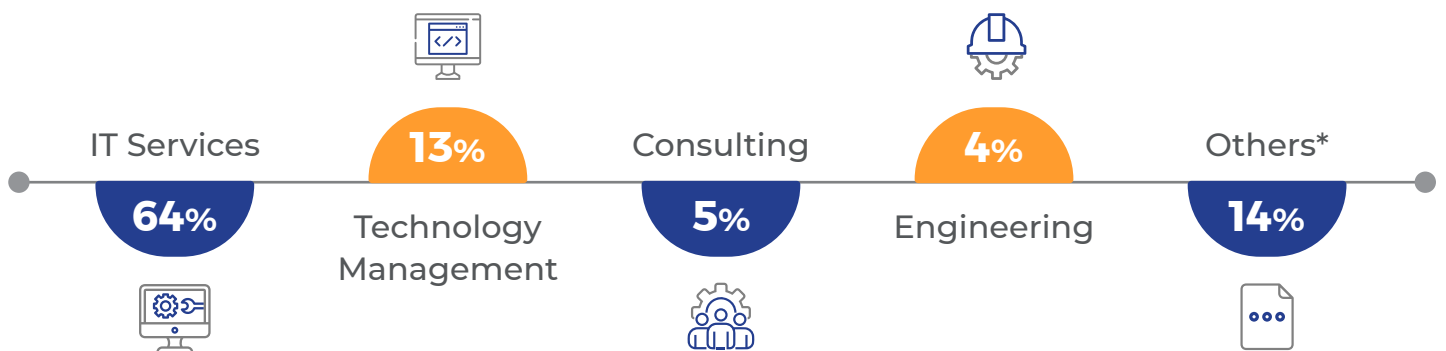

Industries

*Others include FMCG, E-commerce, Infrastructure, Government Services, Retail and Telecommunication, amongst others.

// About IIM Kozhikode

ASSOCIATION
OF
AMBA
ACCREDITED

IIM Kozhikode is ranked 5th as per the latest NIRF India Rankings 2022: Management. The Institute ranked No.2 in the CFIs (non-Technical) category in the Atal Innovation Rankings (ARIIA 2021) released recently by the Ministry of Education, Govt. of India. IIM Kozhikode is globally accredited by EQUIS (EFMD) and AMBA (UK). Since its inception, IIM Kozhikode has successfully carved its niche in management education through a judicious blend of academics and real-world practice. The Institute continually adapts to the rapid influx of changes in the Indian business landscape by providing cutting-edge Management Development Programmes with innovative pedagogy and content to impart industry-relevant knowledge and skills to its executive education participants. Last year, IIM Kozhikode trained more than 3,400 executives through a wide gamut of programmes uniquely crafted for agile minds interested in thought-provoking questions and learning centred on business transformation and growth.

// About Eruditus

IIM Kozhikode is collaborating with online education provider Emeritus to offer a portfolio of high-impact online programmes. Working with Emeritus gives IIM Kozhikode the advantage of broadening its access beyond their on-campus offerings in a collaborative and engaging format that stays true to the quality of IIM Kozhikode. Emeritus' approach to learning is built on a cohort-based design to maximise peer-to-peer sharing and includes video lectures with world-class faculty and hands-on project-based learning. More than 250,000 students from over 160 countries have benefitted professionally from Emeritus' courses.
