IIM Kozhikode Advantage

From the Director's Desk...

IIM Kozhikode programmes designed by world-class faculty with their cutting-edge thought leadership and industry-leading insights empower participants to manage and lead complex business challenges with confidence and data-driven, informed decision-making ability. Our growing global footprints acknowledged and accredited by leading institutions of the world are a testimony to growth we have achieved in our 25-year journey of academic excellence.

At this juncture, it is also pertinent to share that both future and past are integral to the path taken by an institution on this journey of excellence. Having a wide, far-seeing vision is not an indulgence but an activity that is necessary to give meaning to our present, to give this Institution a sense of purpose, direction and imagination. That is why we have chosen to think in terms of what IIM Kozhikode will be able to contribute to India and the world some three decades from now with 'Vision 2047: Globalizing Indian Thought'. The Institute has set for itself a pre-eminent role with the above motto. The sheer scale, scope and potential impact that India will have on 21st century business makes us believe that this is a legitimate aspiration.

Strategy has evolved from its roots in military traditions to becoming a fundamental corporate function. It is attracting top talent, nurturing and cross-pollinating leaders, and solidifying business positions in a world of accelerated change. Global Corporate Powerhouses are dismissing conventional strategic planning in favour of disrupters and independent-minded leaders. That's why IIM Kozhikode has designed and launched the Advanced Strategic Management programme for experienced professionals who have been persistently carving and shaping their organisations for long-term success. From formation, implementation, leadership, and innovation, Prof M. K. Nandakumar and his team of faculty will crack open the nuts and bolts of strategy to help you lead your organisation into the dawn of strategic disruption.

It is time to evolve into leaders who want to redefine their organisation's strategy through proven frameworks and best practices in business strategy, decision-making, future business models, and rise to senior leadership positions by enrolling in IIM Kozhikode's Advanced Strategic Management programme.

Wishing you all the very best!

Overview

Strategy has evolved from its roots in military traditions to becoming a fundamental corporate function. It is attracting top talent, nurturing and cross-pollinating leaders, and solidifying business positions in a world of accelerated change. Leading boards are dismissing conventional strategic planning in favour of disrupters and independent-minded leaders.

That's why **IIM Kozhikode has launched the Advanced Strategic Management Programme**. Designed for experienced professionals who have been persistently carving and shaping their organisations for long-term success, this programme will help you lead and implement strategic change in your organisation. This programme will equip you with skills to redefine your organisation's strategy through proven frameworks and best practices in business strategy, decision-making, future business models, and rise to senior leadership positions.

Programme Director's Message

The strategy development process in organisations necessitates the involvement of managers from all functional areas. The success of this holistic process largely depends upon the contributions made by the managers for developing effective strategies. Research in the field of strategic management has evolved significantly over the years, and the research findings have been translated into practical prescriptions that are useful for managers. Based on these prescriptions, many tools and frameworks used for conducting various strategic analysis have been developed. This programme introduces the necessary tools and frameworks to the participants and provides them with an opportunity to conduct strategic analyses in different contexts. The whole programme is entirely hands-on with the primary objective of providing the required knowledge and skills to the participants for developing their ability to think strategically and to make vital strategic decisions. Many cases based on different industries and decision-making scenarios will be discussed in this programme. These case discussions are very helpful in enhancing strategic thinking skills. A capstone project included in the programme provides an opportunity to apply the critical strategic concepts to tackle major management issues faced by organisations. A strategy simulation included in this programme provides an opportunity for the participants to make critical strategic decisions in a virtual environment. The simulation helps the participants to sharpen their strategic decision-making skills.

Capstone Project

Participants will gain a hands-on learning experience by working on a capstone project that either involves doing a comprehensive strategic analysis of an organisation and providing recommendations, or a consulting project which addresses a relevant issue faced by the organisation during the project. In either case, the analysis done by the participants will lead to suggesting practical recommendations to solve the organisational challenge.

Real-world Case Studies

- **The LEGO Group: Envisioning Risks in Asia (A)**

The case explains the scenario planning process conducted at Lego and is useful to gain insights about the scenario planning process. The participants need to analyse the case using the technique of scenario planning and answer the questions provided.

- **The Global Oil and Gas Industry**

This case discusses the competitive dynamics and explains the critical roles of Integrated Oil Companies, National Oil Companies, and the Independents. This case helps the readers understand the value chain of the global oil and gas industry by discussing the upstream, midstream, and downstream of the industry. It stimulates an exciting discussion regarding the future of the global oil and gas industry.

- **Sandlands Vineyards**

This case explains the intricacies of the global wine industry, including the challenges faced by vineyards and wineries and the strategic opportunities available to them. The participants will need to analyse the industry and devise a competitive strategy for Sandlands Vineyards.

- **The Allergan Board under Fire (A)**

This case explains a hostile acquisition bid of Allergan, Inc. by Valeant Pharmaceuticals International. Allergan and Valeant follow different strategies to achieve organizational growth; hence, the Allergan management does not find potential opportunities to create synergy through this acquisition. The involvement of Pershing Square Capital Management which has teamed up with Valeant in the acquisition bid helps participants understand the M&A dynamics and the investor reactions.

Note: The programme curriculum includes more such case studies for integrated learning.
