What is Executive Presence, and Why Does It Work?

Imagine walking into a room of decision-makers, your ideas at the forefront of the conversation. Everyone listens, but as the discussion wraps up, someone else leaves a lasting impact, gets buy-in and drives action forward. What made the difference?

It was not just the data—it was their executive presence in action.

Executive presence is the subtle but powerful ability to inspire confidence, build trust, and command attention. It’s not just about what you say but how you say it—your charisma, clarity, and connection with the audience.

Why it works? Because it helps you create a professional brand that exudes stability and reliability. And that is what a growing organisation needs. It is about projecting not just who you are, but what you want to be seen as.

It's a science that you can learn, and it includes aspects such as self-awareness, understanding of verbal and nonverbal cues, storytelling skills, persuasion techniques, and more.

The curriculum of the **Executive Presence, Influence, and Storytelling Programme by IIM Kozhikode** emphasises polishing these skills over its 12-week duration, and it can help you irrespective of where you are in your professional journey.

Whether you’re a CxO, an aspiring executive, or a senior manager, a strong executive presence enables you to articulate your vision with precision, create a tangible impact, remain level-headed when facing challenges, and set elevated benchmarks of success.

Here’s a comparison between expectations from key stakeholders and how the programme can benefit them.
