IIM Kozhikode is one of the premier management schools established by the Government of India, dedicatedly devoted to nurturing future business leaders in teaching, learning, consulting, research, and innovation. Founded in 1996, as the 5th IIM of the country, the growth story of IIM Kozhikode is not just about the numbers, but also about some remarkably innovative initiatives that have set the benchmark for other institutions in the country. The Institute is currently on a high growth trajectory, offering the widest range of academic programmes in the field of management education and has consistently brought notable innovations to programme design and delivery. Many such innovations were emulated by others, and IIM Kozhikode takes pride in being a change agent that transformed the higher education space in India. The Institute has achieved such success only through academic rigor, research focus, and education excellence making brand IIM Kozhikode a household name in India. The picturesque, oxy-rich campus nestled in on two hillocks in the Kunnamangalam Area of the ancient city of Calicut in Kerala is also home to the first museum dedicated to Indian Business (established in 2013) in the country.

Achievements

Dec' 21 Centre for Digital Innovation and Transformation (CDiT) was inaugurated by Padma Bhushan Awardee & Co-founder of Infosys Kris Gopalakrishnan

May' 22 IIMK recently entered into a MoU with Suzuki Motor Corporation (SMC) for research and production of a book on SMC's strengths and future prospects in presence of its Mr Kinji Saito, Director & Senior Managing Exec Officer, SMC and IIMK Director Prof. Debashis Chatterjee.

Director's Message

I am delighted to introduce the Class of 2023, the third cohort of IIM Kozhikode's Post Graduate Programme in Business Leadership (PGP-BL). In keeping with our program's goal, we have virtually hand-picked each member of this cohort for their all-around talents and latent leadership characteristics through an innovative selection procedure. They are, in my opinion, among India's brightest talents. They have brought an unstoppable energy and artistic expression to our campus, as well as a sharp inquisitiveness to their courses.

Our current cohort is also one of our most diverse yet, both in terms of experience and background. Bristling with ideas and intellectual curiosity, they have exceeded the expectations of the professors and business leaders who have engaged with them.

IIM Kozhikode recently celebrated its 27th foundation day and has grown from strength to strength as a pioneer in management education. We seek to create a global impact through Indian thought leadership and enabling a holistic environment that provides reflective and experiential learning. As the world grapples with the aftereffects of the pandemic combined with conflicts between nations, it needs managers who are adaptable, resilient, and grounded in core values. The PGP-BL was conceived precisely to address this need, identify experienced young minds, and nurture and shape them into high potential leaders who are authentic, capable, and multi-dimensional.

I am thrilled to invite you to be a part of IIM Kozhikode's PGP-BL initiative. Our vision for this programme will be incomplete without your participation, as only you can enable our young Arjunas to fulfill their potential, by selecting those who will align with your organizations' visionary plans. In the PGP-BL class of 2023, you will find high-performers from industries including manufacturing, automobile, technology, ecommerce, retail, consulting, and more. The batch also consists of entrepreneurs as well as future ready women leaders who have excelled in various sectors. It's my conviction that at IIM Kozhikode you will find your future ready leaders who encompass unyielding determination, humility, integrity, and wholeness in their thoughts and actions. We are glad to present to you, the vibrant new class of 2023.

Thank you for partnering with us!

Warm regards Prof Debashis Chatterjee Director, IIM Kozhikode

Placement Chairperson's Message

Dear Recruiters,

Thank you for reposing your trust and faith in IIM Kozhikode over these past years. We sincerely hope that our partnership reaches greater heights in the coming years. Our collaboration provides us a deeper understanding of the market needs, enabling us to nurture industry-ready professionals who can hit the ground running.

IIM Kozhikode's PGP Business Leadership is a transformational one-year experience that moulds high achieving professionals into well-rounded managers with leadership abilities.

We take great pride in grooming our students into future leaders that can take on professional challenges in an uncertain world.

The program's emphasis on academic rigour, frequent interactions with industry leaders, and global exposure is designed to shape the experienced but still young cohort into future business leaders who are confident, empathetic, capable, and value centric. Our institute is committed to pursue excellence and perfection as its core mission.

We place tremendous value on our industry partnerships and are keen on continuing our long-term mutually beneficial relationship. I would like to take this opportunity to invite you for placements for the PGP -Business Leadership batch and I am confident that you will find your future leaders amongst them.

Looking forward to your continued support and association with IIM Kozhikode.

Best Wishes! Prof. Qambar Abidi Chairperson - Placements Indian Institute of Management Kozhikode

Alumni Diaries

66

Being a part of the pilot batch of PGP-BL has been one of the most exciting journeys of my life. I come from a CS engineering background (and experience), so I was unfamiliar with the other industries and business functions. In a short span of time, PGP-BL, with its wholesome curriculum, and my cohort, with their diverse experiences, helped me to expand my horizons. I was able to develop a mindset to deal with the VUCA environment and sail through any problem efficiently whilst developing leadership and entrepreneurship skills. Not to mention, the networks we created will be useful for years to come.

Prashasti Varshney
PGP-BL01, Co'21
Strategy & Consulting, Accenture Strategy

99

Business Leadership was a truly formative and exhilarating experience. It is meticulously designed to maximise the learning potential by stimulating your intellectual capacity through a constant exchange of perspectives with peers, faculty, entrepreneurs, and market experts. One of the most splendid factors of the program was the batch's diversity, resulting in a rich intellectual atmosphere of open-minded liberalism that made me reflect on my life and career from a whole different perspective. Finally, the beautiful campus experience and long-lasting friendships you gain are worth every second and penny that you have invested in the community and the experience.

Sanjyot Yadav *PGP-BL01, Co'21* Strategy and Consulting, Cedar Management Consulting International

Looking back, BL appears to be a simulation of the corporate middle management environment, wherein one must always be prepared and updated to deliver quality work on short notice and within tight deadlines. By enabling me to look at the big picture from multiple perspectives, BL helped me discipline my thought process and enhance my critical thinking abilities. This has helped me make informed decisions under time and information constraints. The course has been designed to help students not only benefit from the professors' expertise, but also to foster a culture of self- and peer-learning. This helped me to hone not just my business acumen but also soft skills, which are essential to negotiating win-win solutions with diverse stakeholders who often have competing interests.

Aarthi Mandara *PGP-BL01, Co'21* Technical Product Manager, PayPal

My experience in the one year at IIM-K, in its full-time PGPBL programme can be succinctly summed up as "Work hard, have fun, and make history!". This is precisely what we did, albeit at a breakneck pace, which accelerated our learning, growth and development. Amid the academic rigor our veteran professors extracted, we found our tribe. The exposure during this period, owing to the diversity of the peers, the leadership connects, the numerous case studies and the competitions, set against the backdrop of the God's own Kampus, was both exhilarating and insightful.

Madhushree Raje *PGP-BL02, Co'22* Sr. Customer Service Manager, Amazon

77

PGP-BL offered me a career-defining experience. It made me understand my range of limits while exposing me to a breadth of learnings, experiences, and nuances. Not only the keenly designed curriculum, which included case discussions, simulations, and a buffet of electives, taught by the best professors of IIMK but also the diversity of our peers, utilized through group project submissions, helped me share new horizons on a variety of management topics. Workshops like Happiness Workshop by Prof. Raj Raghunathan made me realize the essence of leadership and International Immersion gave me a global perspective on business. The opportunities to compete in national case competitions and extra-curricular activities on campus made me an all-rounded personality. And all of it was brought under the umbrella of a beautiful campus. Grateful to PGP-BL for arming me with the skill set of problem-solving, critical thinking, first principles approach, and proficient communication skills - all of which are getting utilized in my current role.

Sunmeet Singh Sethi PGP-BL02, Co'22 Product Manager, Publicis Sapient InsidelIM's Best 50 - The Most Employable Graduates, Class of 2022

The PGPBL programme at IIM Kozhikode is a great opportunity to add business acumen to your existing experience that acts as a foundation for a management career. The top highlights include excellent faculty, peers, networking, and campus/infrastructure. It's an intense and crisp program that offers a rollercoaster experience in terms of aspirations, opportunities, leadership talks, and workshops. Finally, the course offers varied experiences and we can make the most of it by capitalizing that suit us.

Vinay Nandina PGP-BL02, Co'22 Project Manager, Microsoft

If you were to ask me to list the top three aspects of my MBA experience at IIM K, I would say the invaluable lessons I learned, the lovely campus, and the individuals I got to interact with. When I got selected for the second batch of the PGP- BL program, I joined a batch of 60 diverse students who had work experience varying from 3-8 years. I was able to learn different business perspectives across industries, thanks to peer exchanges. The BL program adheres to a demanding curriculum, and the pedagogy is created to produce the business leaders of tomorrow. The academic discussions and exercises helped me to refine my thought process to overcome business challenges in a cross-cultural environment. After my MBA, I got placed into a cybersecurity company and currently, I am driving Managed Security Services and Staff Augmentation business division for the company in an international market. I was absolutely new to the industry and the region, but the transformational year at IIM K is what allowed me to take on this responsibility with confidence and succeed moving forward.

Miaraj Ahmad

- Visual Analytics using Tableau
- Making Impactful Presentations
- Managerial Judgement

International Immersion

The international immersion module for PGP-BL is designed to broaden students' knowledge about various aspects of managing businesses in a multicultural environment, especially in a rapidly changing global environment. As a part of the curriculum, students of PGP-BL visit Bocconi University in Italy, a premier European Business School for a 2-week global immersion. The students are exposed to a definitive international experience that involves both academic instructions as well as experiential and cross-cultural learning, including visits and interactions with key local businesses. The academic component would involve an assessment module that maps the overall course credits, and the subject of instruction is chosen with the specialty of the country.

Live Projects

Students of PGP-BL also get a hands-on experience in tackling business problem faced by organization through Live Project module. The module is designed is such a way that a student partners with an organization that will facilitate them on working on live-in course or across the term project in various domains including but not limited to Strategy, Marketing, Sales, Consulting etc.

The PGP-BL at IIMK aims to nurture and empower the next generation of leaders. The student-driven Leadership Talk series is one of our key initiatives towards this goal. The Leadership Talks are designed to drive learning outside the classroom, and encourage interactions with industry leaders and individuals from all walks of life.

Speakers of repute, from recent start-ups to established organizations, address the PGP-BL students at IIMK during these speaker sessions.

Topics discussed include Leadership, Metaverse, New mobility, HR, and more.

Placement Process & Timelines

PGP-BL placements will be a combination of cluster-based and rolling process. The cluster-based process is tentatively scheduled from mid of September 2022 and November 2022. The rolling process will begin from 1st December 2022 onwards and continue till the end of March 2023.

Opportunity Notification

At any time during the year, companies can send the details of any opportunity to pgpbl-placements@iimk.ac.in

Pre-Placement Talk

We welcome the organization to set the stage with their pre-placement talk. This avenue provides an excellent opportunity for the organization to lay the foundation about their vision, mission, work culture, career and growth trajectories. The pre-placement talks would be scheduled after the prior intimation from the respective organization.

September 2022 Onwards

The company contacts the Placements Committee to schedules a PPT to the eligible students. Three-day slots (Placement Rolling Slots-PRS) would be made available every week during that period wherein recruiter/s would be invited to campus/technology platform for conducting their pre-placement talk (PPT)/process.

Shortlisting

The Placement Committee on gauging the interest of the cohort and as per the company pre requisites would then send the resumes of interested candidates to the respective organization. The Organization sends the interview shortlist to the Placement Committee prior to the startoftheinterviewprocess. The Interview dates and ven uewould be finalized in a collaborative process by the Placement Committee and the organization.

November 2022

The resumes of interested candidates are sent to the company. The company in turn reverts with a shortlist. The company's slot in the placement process is confirmed by the Placement Committee.

The slots for the company will be based on:

- The recruiter's past relationship with IIM Kozhikode
- Brand Name of the Recruiter
- Roles Offered
- Compensation

Interview Process

The Interview process would take place as per the structure and date agreed between the organization and Placement Committee. The entire process would be carried out in a seamless manner with committee members. Students can also visit corporate offices for the interview process. The interview process can also be conducted virtually through preferred online platform.

Offer Notification

December 2022 onwards

The process begins. Selection processes of various participating companies are organized by Placement Rolling Slot. Recruitment processes of companies in the same slot progress in parallel
