

Career Development:

The transition of students in the residential PG programmes, from their previous career to a new role in the management sector, needs to be taken care of during their course tenure at IIMK. In order to achieve this objective, there are various formal cohorts contributing to the efforts, like Placements Committee, Placements Operations Committee, Konquest committee, Students Council, Industry Interaction committee, Special Interest Groups and Alumni Cell. The oversight and monitoring of activities of these groups is done independently by relevant offices. Various events are organized and coordinated by these groups to ensure overall development of the students.

Special Lectures and Seminars:

In order to accelerate the performance level and to keep the students equipped with the best skill sets, we arrange Leadership talks, Workshops, Campus meet, Quizzes, Webinars, Professionalized CV-building sessions and Case Study competitions by incorporating selected speakers from our alumni network and transnational brands.
