IIM Kozhikode Advantage

From the Director's Desk

India is currently the prime destination for logistic service providers from all over the world. While infrastructure is one of the things stopping us from being world's biggest supply chain and logistics provider, it is also the lack of skills and competencies of OSCM professionals that is creating a tiny hinderance in the smooth functioning of the supply chain.

Businesses today have seen a complete transition from how they used to be run a decade ago. Recent industry reports suggest that close to 68% of business leaders in India have reported that having high agility reduced their costs by 25%. It is thus imperative for business leaders of today and the future to expand their knowledge across domains and proactively make decisions to be effective leaders. IIM Kozhikode programmes, designed by world-class faculty with their cutting-edge thought leadership and industry-leading insights, empower participants to manage and lead complex business challenges with confidence and data-driven, informed decision-making ability. Our growing global footprint, acknowledged and accredited by leading institutions of the world, is a testimony to the growth we have achieved in our 25-year journey of academic excellence.

At this juncture, it is also pertinent to share that both, the future, and the past, are integral to the path taken by an institution on this journey of excellence. Having a wide, far-seeing vision is not an indulgence but an activity that is necessary to give meaning to our present, to give this Institution a sense of purpose, direction, and imagination. That is why we have chosen to think in terms of what IIM Kozhikode will be able to contribute to India and the world some three decades from now with 'Vision 2047: Globalizing Indian Thought'. The Institute has set for itself a pre-eminent role with the above motto. The sheer scale, scope, and potential impact that India will have on 21st century business makes us believe that this is a legitimate aspiration.

Invest in your potential and advance your career by enrolling in the 14th batch of IIM Kozhikode's Executive Post Graduate Certificate in Operations & Supply Chain Management. Wishing you the best of learning experiences here.

Prof. Debashis Chatterjee,
