Dear Sir,

The reply to the questions are as under;

(a) whether Government has started issuing graduation/degree certificates using block chain technology;

No. However necessary actions are initiated by the Institute for storing the certificates in National Advisory Depository/Digital Locker.

(b) if so, the details thereof;

Not applicable

(c) whether Government is of the view that these technologies can address the fake certificate issue that hamper the quality of the education; and

Yes

(d) if so, the details thereof?

Institute can record in one single transaction an entire graduation session. It can transform the "record keeping" of degrees, certificates and diplomas, making credentials digital and under single control, without the need for an intermediary to verify them. Those certificates serve as a permanent score report, which can help the students with future educational or professional applications.
